

The Equine Athlete may not demand spring water and relaxing spa treatments but just like all athletes he may need help to stay on top of his game, whatever that might be and at any level. **EquiVita Equine Sports Massage** can help your horse to stay healthy, sound and willing to perform; massage can also help to relax the horse before an event as well as help him recover more quickly from exertions. Massage is frequently used to assist in the rehabilitation of horses suffering from injury or illness.

EquiVita Equine Sports Massage

The Hands On Approach To Greater Vitality For Your Horse

Natural Herbal Products
for horses

- ✓ **All Pro-Equine products are 100% natural and chemical free**
- ✓ Extensive range of specialist supplements, skin care and competition products for mobility, digestion, airways, skin and wound care as well as knocks, bumps & bruises. The natural shampoo range brings relief to many sensitive horses. The Alternative Fly Gel is a highly popular seasonal product!
- ✓ The ingredients are unique and very fast acting in small doses.
- ✓ Topical products are safe to use on smaller animals, e.g. dogs, and humans!
- ✓ Highly praised by horse (and dog) owners battling long term skin issues.

Call the order line direct or Bente on 01903 746580 or 07892 789221 for more information or to order. Visit the website: www.pro-equine.com
