IMPORTANT – Vaccination Rules

If you are currently involved in teams or would like to be in the future, PLEASE help us, to help youby reading on

To be part of any **Riding Club Team** your horse or pony MUST have a **valid vaccination certificate**. This MUST...

- 1) Have a completed Identification diagram of your horse
- 2) Be in the horse's full registered name
- 3) Be signed and stamped by a vet on each line of the vaccinations administered

The horse must have **UP TO DATE** vaccinations, which includes

- 1) First injection
- 2) Second Injection which is between 21 and 92 days after the first injection
- 3) Third Injection which is between 150 and 215 days after the second injection - plus annual boosters thereafter which must be not more than 1 year apart.

If at any stage the booster is late (even a day over the 365 days after the last !) then the **WHOLE COURSE** of three injections as above **MUST** be recommenced from scratch.

In which case a horse/pony may compete if it has had at least the first two injections.

IN ADDITION no vaccinations may be given within the preceding 7 days of a RC competition. So if your horse needs its jabs within this period of 7 days you must get it done **EARLIER** so that it is completed at least 7 days before any RC competition you may be involved with.

Please, please, please **check your passports/vaccinations NOW and diarise annual jabs** so that you don't forget them. They must accompany you and your horse at ALL RC team competitions and they will be checked !

It is **YOUR responsibility** to ensure your horses vaccinations are correct. **Do not rely** on your vet, even if they say it is ok, please check they comply with the above. We do not want to be caught out again by these very strict rules and have team members eliminated or not allowed to compete, which could also mean the whole team is eliminated !

If you have any queries regarding the above please do not hesitate to call us or send a copy of your vaccinations records to either of us.

Thank you
